

Press Release

Indxx Launches the Indxx ISS ESG Index Series

New York - September 23, 2020 - [Indxx](#) announces the launch of its first set of the Indxx ISS ESG Index Series, which is designed to integrate responsible investing policies into broader indices by leveraging ISS ESG data. Our current offerings include:

- Indxx ISS ESG Blockchain Index (Ticker: [ESGBCI](#))
- Indxx ISS ESG Climate Change Solutions Index (Ticker: [ESGGCCI](#))
- Indxx ISS ESG Disruptive Technologies Index (Ticker: [ESGDTI](#))
- Indxx ISS ESG Global Cybersecurity Index (Ticker: [ESGCSI](#))

Indxx recently entered into an agreement with ISS ESG, the responsible investment arm of Institutional Shareholder Services (“ISS”). The agreement allows Indxx to utilize ISS ESG’s class-leading environmental, social and governance (ESG) data to develop custom ESG index solutions to meet the growing and global demand for responsible passive investing.

The Indxx ISS ESG Index Series takes Indxx’s custom indices and overlays them with ISS’s proprietary ESG ratings and methodology.

“The COVID-19 pandemic has not only caused a worldwide global recession but also provided renewed focus on ESG investing. According to a recent report by Morningstar, global sustainable fund inflows saw a 72% increase in Q2 2020. These numbers re-establish the growing demand from investors for responsible investing,” said Rahul Sen Sharma, Managing Partner at Indxx. “We are pleased to join forces with ISS ESG in bringing this first set of high quality unique ESG indices to the market. Indxx is also working towards expanding the ESG suite and enabling our clients to align investments with ESG goals.”

Added Vaibhav Agarwal, Chief Revenue Officer at Indxx: “With this series, we bring to market an unparalleled combination of our thematic indexing prowess and ISS ESG’s gold standard ESG data, offering investors a unique opportunity to meet their sustainable investment goals, while also addressing their thematic preferences. We’re living in a very dynamic world, as evidenced by the recent COVID-19 crisis. The growing digital and clean environment trends have only seen their adoption increase in the recent times. We believe that the structural changes brought about by these megatrends will ensure their longevity and increased consumption. What better way than to invest in these in a way that is also impactful and sustainable.”

About Indxx

Founded in 2005, Indxx endeavors to deliver innovative and custom indexing and calculation solutions to the investment management community at large.

Indxx and products tracking our indices have been nominated for and received numerous awards, including ‘Most Innovative ETF Index Provider’ for the Americas at the 14th Annual Global ETF Awards in July 2018.
