Indxx LLC Launches Three Thematic Indices, Licensed to Global X Funds for Exchange Traded Funds

Indxx LLC is pleased to announce the launch of the Indxx Global Internet of Things Thematic Index, Indxx Global Robotics & Artificial Intelligence Thematic Index and Indxx Global Fintech Thematic Index (the "Indices"). The Indices have been licensed to New York-based ETF provider Global X Funds as the underlying benchmarks for the Global X Internet of Things Thematic ETF (NASDAQ: SNSR), Global X Robotics & Artificial Intelligence Thematic ETF (NASDAQ: BOTZ) and Global X FinTech Thematic ETF (NASDAQ: FINX), which began trading today.

The Indices follow three initial thematic indices developed and launched by Indxx earlier this year: The Indxx Millennials Thematic Index, Indxx Global Longevity Thematic Index and Indxx Global Health & Wellness Thematic Index.

About The Indices

The Indxx Global Internet of Things Thematic Index is designed to provide exposure to exchange-listed companies in developed markets that facilitate the Internet of Things industry, including companies involved in wearable technology, home automation, connected automotive technology, sensors, networking infrastructure/software, smart metering and energy control devices. The Internet of Things refers to the network of physical objects (devices, vehicles, equipment, homes, buildings) that are connected to the Internet through embedded devices and software, which allows these physical objects to collect, analyze and exchange data.

The Indxx Global Robotics & Artificial Intelligence Index is designed to provide exposure to exchange-listed companies in developed markets that are involved in the development of robotics and/or artificial intelligence, including companies involved in developing industrial robots and production systems, automated inventory management, unmanned vehicles, voice/image/text recognition, and medical robots or robotic instruments.

The Indxx Global Fintech Thematic Index is designed to provide exposure to exchange-listed companies in developed markets that provide financial technology products and services, including companies involved in mobile payments, peer-to-peer (P2P) and marketplace lending, financial analytics software and alternative currencies.
