

## Press Release

### Indxx Tourism and Leisure Index Licensed to Meitav Tachlit Mutual Funds Ltd. for an Index Tracking Fund

**New York - September 15, 2020** - [Indxx](#) is pleased to announce that the [Indxx Tourism and Leisure Index](#) (the "Index"), has been licensed to Israel-based Meitav Tachlit Mutual Funds as the underlying benchmark for an index tracking fund (Tel Aviv: 05131768), which began trading on the Tel-Aviv Stock Exchange last week.

The Index (Ticker: IDTLI), is designed to track the performance of the companies listed in the United States, Canada or Developed Europe, as defined by Indxx, that provide exposure to travel aggregators, flights, cruises, hotels, and holiday homes.

"The travel and leisure faced a massive downturn beginning in the first half of 2020 due to COVID-19. The gradual lifting of lockdowns globally has aided in the start of a recovery of the tourism and leisure industries," said Rahul Sen Sharma, Managing Partner at Indxx. "As lockdowns continue to lift and, eventually, a vaccine is hopefully approved that allows a return to normalcy, we expect these industries to recover and grow. Our partnership with Tachlit has brought another innovative product tracking one of our indices to the Israeli market, and we continue to be excited about our launches with them."

As of September 15, 2020, the index has 49 constituents. It has a backtested date of May 29, 2015 and a live calculation date of June 08, 2020. Additional information can be found [here](#).
