

Press Release

Indxx Licenses 5 Indices to Global X ETFs for UCITS Product Suite

New York – November 18, 2021 - [Indxx](#) is pleased to announce that Global X ETFs is licensing the following indices from Indxx, adding to their growing suite of UCITS funds launching today on the London Stock Exchange (LSE), in addition to having been listed on Euronext Dublin on November 17th.

- Indxx Global FinTech Thematic v2 Index, the underlying benchmark for the Global X FinTech UCITS ETF (FINX)
- Indxx Cybersecurity v2 Index, the underlying benchmark for the Global X Cybersecurity UCITS ETF (BUG)
- Indxx Global Robotics & Artificial Intelligence Thematic v2 Index, the underlying benchmark for the Global X Robotics & Artificial Intelligence UCITS ETF (BOTZ)
- Indxx Global CleanTech v2 Index, the underlying benchmark for the Global X CleanTech UCITS ETF (CTEK)
- Indxx Global Internet of Things Thematic v2 Index, the underlying benchmark for the Global X Global Internet of Things UCITS ETF (SNSR)

This group of thematic indices is designed to capture and track the evolution of today's most promising technologies that boast disruptive potential, ranging from innovations in fintech to cybersecurity to robotics:

- The Indxx Global FinTech Thematic v2 Index (Ticker: [IFINX2](#)) is designed to provide exposure to exchange-listed companies in developed markets that provide financial technology products and services, including companies involved in mobile payments, peer-to-peer (P2P) and marketplace lending, financial analytics software, and alternative currencies.
- The Indxx Cybersecurity v2 Index (Ticker: [IBUGT2](#)) seeks to track the companies that stand to potentially benefit from the increased adoption of cybersecurity technology, such as those whose principal business is in the development and management of security protocols preventing intrusion and attacks to systems, networks, applications, computers, and mobile devices.
- The Indxx Global Robotics & Artificial Intelligence Thematic v2 Index (Ticker: [IBOTZT2](#)) offers exposure to the burgeoning robotics and AI technologies that are rapidly being applied in a variety of sectors.
- The Indxx Global CleanTech v2 Index (Ticker: [ICTECT2](#)) seeks to provide investors exposure to those companies involved in renewable energy production, energy storage, smart grid implementation, residential/commercial energy efficiency, and the production and provision of pollution-reducing products and solutions.

- The Indxx Global Internet of Things Thematic v2 Index (Ticker: [ISNSRT2](#)) is designed to track the performance of companies listed in developed markets that are expected to benefit from the increased adoption of the Internet of Things (IoT).

“We view technological innovation and the integration of new technologies as the driving force behind the growing demand for thematic indices, which have reached a tipping point now that retail investors have grown more comfortable with the ETF structure. As a result, we’re thrilled to be pairing up with Global X ETFs to offer investors more precise exposure to these disruptive, new areas of the market,” says Rahul Sen Sharma, Managing Partner at Indxx.
