HANetf shifts the HAN-GINS Indxx Healthcare Innovation UCITS ETF (WELL) to a new Indxx Index

New York – April 09, 2021 - [Indxx](#) is pleased to announce that the HAN-GINS Indxx Healthcare Innovation UCITS ETF (WELL), will be renamed as HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF (WELL), which will now track the Indxx Global NextGen Healthcare Index (the “Index”).

The Index (Ticker: [IHMEQT](#)) is designed to measure the performance of companies that provide exposure to the NextGen Healthcare sector, as defined by Indxx.

Rahul Sen Sharma, Managing Partner at Indxx said, “We are very happy to support HAN ETF in their decision to shift the underlying index of the fund to a new Indxx Index, with added ESG screens and the addition of new themes.”

Added Vaibhav Agarwal, Chief Revenue Officer at Indxx, “We are very excited about the modifications to the underlying index of the WELL ETF. As an index provider, our intent is to capture the evolving nature of the thematic trend in our indices. Our research team has been able to identify emerging healthcare domains such as telemedicine and healthcare analytics, which are being effectively captured by the Indxx Global NextGen Healthcare Index. The advanced healthcare themes along with the integration of ESG screens will aid the fund in gaining an edge over its peers.”

As of April 09, 2021, the index has 101 constituents. It has a backtested date of June 30, 2016 and a live calculation date of April 07, 2021. Additional information can be found [here](#).
