

Press Release

Indxx Japan Robotics & AI Index Licensed by Global X Japan for an Exchange Traded Fund

New York – June 23, 2021 - [Indxx](#) is pleased to announce that the Indxx Japan Robotics & AI Index (the “Index”), has been licensed by Japan based ETF Issuer Global X Japan as the underlying benchmark for the Global X Japan Robotics & AI ETF (Ticker: 2638 JP Equity), which began trading today.

The Index (Ticker: [IJRAI](#)) is designed to track the performance of Japanese companies that are involved in the development of robotics and artificial intelligence (“AI”) or are expected to benefit from its increased adoption and utilization.

Rahul Sen Sharma, Managing Partner at Indxx said, “Japan has been at the leading edge of technological advancement for several decades, and Japanese companies are global leaders in the robotic and AI revolution that are disrupting sectors and industries on a global basis. Our Index provides targeted exposure to these leaders. We are very happy to partner with Global X Japan for another innovative launch.”

Added Vaibhav Agarwal, Chief Revenue Officer at Indxx, “Our Product Development team has successfully created a robust set of construction rules that provide a targeted exposure to the growing Japanese robotics and artificial intelligence market in an efficient manner. Our Index captures companies driving automation across a myriad of themes such as industrial robots and automation, non-industrial robotics, unmanned vehicles and drones etc. We are very excited upon bringing this investment strategy to the Japanese market, with Global X Japan.”

Akihiko Kanamura, President of Global X Japan Co., Ltd. said, “ We believe that the Japanese ETF market will continue to grow in the future on the trend of long-term, diversification, and low-cost in the wealth management. AUM of thematic ETFs is expanding in the U.S. As a thematic and ESG related ETF pioneer in Japan, we aim to provide various investment means with investors in Japan.”

As of June 23, 2021, the index has 32 constituents. It has a back tested date of February 29, 2016, and a live calculation date of May 21, 2021. Additional information can be found [here](#).
