**New York – August 30, 2022** - [Indxx](#) is pleased to announce the licensing of their [Indxx Multi Asset Income Index](#) to Mirae Asset Global Investments as the benchmark index for the Mirae Asset Tiger Global Multi Asset TIF Active ETF (Ticker: A440340), which began trading today on the Korea Exchange (KRX).

The Indxx Multi Asset Income Index seeks to accurately and comprehensively increase exposure to different asset classes, with an objective of providing a diversified portfolio of United States listed assets. The product is built on a unique ranking process used to select the top ETFs from each listed asset class in the methodology, which results in a combination of ETFs from both equity and fixed income asset classes with a tilt toward fixed income.

“We are in an era with dynamic investment opportunities. From equity to fixed income to real estate, there is a wide range of asset classes through which investors can access global markets. The changing market dynamics make it challenging for investors to choose the right asset mix. A Multi-Asset Strategy serves as an effective tool to take advantage of market opportunities and lower risk.”, said Rahul Sen Sharma, Managing Partner at Indxx, “ We are excited to partner with Mirae Asset Global Investments, who recognize the value in offering investors access to such innovative strategies.”

Chandan Kumar GV, Head of Products at Indxx added, “At Indxx, each index represents a unique methodology backed by top-notch research, the Indxx Multi Asset Income Index is no exception. It follows a distinctive framework to offer a diversified exposure to US assets.”
