

Press Release

Indxx US Infrastructure Index Licensed by KSM Mutual Funds Ltd. for an Index Tracking Fund

New York – September 02, 2021 - [Indxx](#) is pleased to announce the licensing of their Indxx US Infrastructure Index to KSM Mutual Funds Ltd. The index will serve as the underlying benchmark for KSM KTF (4A) Indxx US Infrastructure Currency Hedged (Tel Aviv: 5133434)

The Index (Ticker: [IUSINF1](#)) is designed to track the performance of US listed companies that are involved in the provision of infrastructure through engineering, design, maintenance and construction of infrastructure projects.

“A nation’s economy relies on a vast network of infrastructure, from roads to electric grids to internet provision, for its growth. Recognising the importance of a robust infrastructure system, the US government is in process of passing an infrastructure bill, that would be the largest federal investment in decades,” said Rahul Sen Sharma, Managing Partner at Indxx. “We believe the fund launch is very timely and expect the US Infrastructure theme to witness immense growth. We are excited to partner with KSM Mutual Funds Ltd, to bring this to the Israeli market.”

Added Vaibhav Agarwal, Chief Revenue Officer at Indxx, “Our index utilizes a unique framework to identify the leading infrastructure companies in the United States. Our research-focused approach has led us to develop a differentiated strategy to target this growing theme. The increasing federal investments in US infrastructure make this a promising investment theme. We look forward to a successful launch with KSM Mutual Funds Ltd.”

As of September 02, 2021, the index has 74 constituents. It has a back-tested date of January 29, 2016, and a live calculation date of April 21, 2021. Additional information can be found [here](#).

About Indxx
