

## Press Release

# Indxx Licenses SPAC & NextGen IPO and US Green Infrastructure Indices to Korea Investment Management Co. for two Exchange Traded Funds

**New York – August 05, 2021** - [Indxx](#) is pleased to announce the licensing of their [Indxx SPAC & NextGen IPO Index](#) and the [Indxx US Green Infrastructure Index](#) to Korea Investment Management Co. for two Exchange Traded Funds. The indices will serve as the underlying benchmarks for the KIM KINDEX US SPAC&IPO INDXX ETF and KIM KINDEX US Green Theme INDXX ETF, respectively. Both funds are listed on the Korea Exchange (KRX).

The Indxx SPAC & Next Generation IPO Index (Ticker: [ISPACP](#) ) benchmarking the KIM KINDEX US SPAC&IPO INDXX ETF (Ticker: 391590 KS Equity), seeks to accurately and comprehensively increase exposure to newly listed Special Purpose Acquisitions Corporations (“SPACs”), ex-warrant and initial public offerings derived from SPACs since August 1, 2017. As a passive rules-based index, security holdings must have a minimum total market capitalization of \$250 million and a three-month average daily turnover greater than or equal to \$1 million since the launch date. For inclusion, all IPOs derived from a SPAC cannot exceed two years of trading since its inception date.

The Indxx US Green Infrastructure Index (Ticker: [IUGIIP](#)) benchmarking the KIM KINDEX US Green Theme INDXX ETF (Ticker: 391600 KS Equity), tracks the performance of US-listed companies that are involved in the production, transmission, or distribution of green energy. Specifically, the index encompasses the following sub-themes: green transportation, green energy, green fuel, green infrastructure & equipment, pollution control, waste management and green construction. The industries identified through this research-based approach are those business segments that are expected to provide the most exposure to the future of sustainable infrastructure initiatives.

“We are in an era with dynamic investment opportunities. From bold, new avenues for private companies to list on public exchanges to progressive plans to renovate domestic infrastructure, both are areas ripe for increased exposure.” said Rahul Sen Sharma, Managing Partner at Indxx. “We are excited to partner with Korea Investment Management Co., who recognize the value in offering investors access to these two emerging growth sectors on the Korea Exchange.”

Vaibhav Agarwal, Chief Revenue Officer at Indxx added, “At Indxx, each index represents a unique methodology backed by top-notch research. Both the Indxx SPAC NextGen IPO Index and the Indxx US Green Infrastructure are no exception. By partnering with KIM, we hope to bring the corresponding methodology to life.”

Commenting on their partnership, Ryan Seongin Jeong, head of ETF Strategy at Korea Investment Management Co., said, “We are proud to have worked alongside Indxx on the licensing of these two innovative indices which will serve as the underlying benchmark for two new ETFs. KIM congratulates the fruitful collaboration with Indxx, allowing us to offer more market access to investors. “

As of August 05, 2021, the Indxx SPAC & NextGen IPO Index has 249 constituents. The index has been backtested to April 30, 2020 and has a live calculation date of September 22, 2020. Additional information on the Indxx SPAC & NextGen IPO Index can be found [here](#).

As of August 05, 2021, the Indxx US Green Infrastructure Index has 46 constituents. The index has been backtested to December 30, 2016 and has a live calculation date of April 12, 2021. Additional information on the Indxx US Green Infrastructure Index can be found [here](#).
