Indxx Cybersecurity Index Licensed by Global X Funds for an Exchange Traded Fund

Indxx is pleased to announce the [Indxx Cybersecurity Index](#) (the “Index”) has been licensed to US-based Asset Management firm, [Global X Funds](#) as the underlying benchmark for the Global X Cybersecurity ETF (NASDAQ: BUG). BUG began trading on the Nasdaq Exchange on the 25th of October.

The Index (ticker: IBUG) is designed to track the performance of companies that operate in the cybersecurity industry. Indxx defines Cybersecurity as activities that comprise the development and management of security protocols preventing intrusion and attacks to systems, networks, applications, computers, and mobile devices.

“We are delighted to partner with Global X towards the launch of BUG. We live in a digital world and are increasingly facing cyber-threats on a regular basis. There is an increased focus on identifying and managing these risks by all corporates and governments alike worldwide” said Rahul Sen Sharma, Managing Partner at Indxx. “Our product development team, through its research and development, has been able to create a portfolio of companies that will potentially generate great value for their stakeholders, by being at the forefront of this growing space”

About Indxx

Founded in 2005, Indxx endeavors to deliver innovative and custom indexing and calculation solutions to the investment management community at large.

Indxx and products tracking our indices have been nominated for and received numerous awards, including most recently ‘Most Innovative ETF Index Provider’ for the Americas at the 14th Annual Global ETF Awards in July 2018.
