

Press Release

Indxx Licenses 2 Indices to Global X ETFs for UCITS Product Suite

New York – November 04, 2021 – [Indxx](#) is pleased to announce that Global X ETFs is licensing the following indices from Indxx, adding to their growing suite of UCITS funds launching today on the London Stock Exchange (LSE), in addition to having been listed on Euronext Dublin on November 2nd.

- Indxx U.S. Infrastructure Development v2 Index, the underlying benchmark for the Global X U.S. Infrastructure Development UCITS ETF (PAVE)
- Indxx Global Cloud Computing v2 Index, the underlying benchmark for the Global X Global Cloud Computing UCITS ETF (CLO)

The Indxx U.S. Infrastructure Development v2 Index is designed to follow the performance of companies involved in infrastructure development in the United States, including those participating in the construction and engineering of infrastructure projects; the production of infrastructure raw materials, composites and products; producers/distributors of heavy construction equipment; and companies engaged in the transportation of infrastructure materials.

The Indxx Global Cloud Computing v2 Index tracks the performance of companies that are in the Cloud Computing Industry. These include those involved in the delivery of computing services, servers, storage, databases, networking, software, analytics and more over the Internet, which is referred to as 'The Cloud'.

“Plans outlining infrastructure development by the current administration underscore increased investment opportunities throughout the entire value chain of large-scale projects in energy distribution, water, waste, telecommunication, transportation, airports and seaports,” said Rahul Sen Sharma, Managing Partner at Indxx. “Another area of rapid growth, cloud computing, offers investors an opportunity to tap into one of the fastest growing technology segments.”

Vaibhav Agarwal, Chief Revenue Officer at Indxx, added, “Our indices are the product of a unique methodology backed by top-notch research. “We are excited to once again partner with Global X ETFs, who recognize the value in offering European investors access to these high growth sectors.”

The Indxx U.S. Infrastructure Development v2 Index has 100 constituents back tested to February 18, 2021 with a live calculation date of February 18, 2021. Additional information can be found [here](#). The Indxx Global Cloud Computing v2 Index has 34 constituents back tested to February 17, 2021 with a live calculation date of February 18, 2021. Additional information can be found [here](#).
